Learning Points

Infinitives of Purpose

Infinitives are the structure *to* + *verb*, like **to go** or **to see**.

Infinitives of purpose are infinitives you place in phrases at the end of a sentence. They explain *why* the action happens.

Examples:

- *Scientists go there **to research** the flora and fauna.*
- *I travel **to meet** people and sightsee.*

Talking About Intentions and Plans

You use the **Present Continuous** and **be going to** to talk about future actions and events.

You use the **Present Continuous** to talk about arrangements and plans.

Be going to puts an emphasis on the idea of intention (decide to do something).

You can use **intend to** in place of **be going to**

Examples:

- *We are dirt biking our way to the park. vs. We are going to dirt bike our way to the park.*
- *I intend to go white-water rafting.*
